

Resonate with Nature

THIS IS LIFE... NATURALLY!

Kurumba! Exhale it like a sigh, a mantra... In this one word is compressed the past and rich culture of a forgotten tribe!

Kurumba is now re-born! As the Kurumba Village Resort – a tribute to the ancient tribe that lived in sync with nature in this hot spot of great bio-diversity.

Here, our guests too will live like the Kurumbas, feel the pulse of the earth, live in harmony with its cyclical rhythms; wake up to the call of the whistling thrush; the gurgle of streams, the splash of waterfalls, the rustling of the wind in the trees... In the distance a delicate mist slowly lifts over the Nilgiris, the Blue Mountains

Meandering pathways lead you to the different tribal-style cottages and suites and thatched open-sided restaurant ... all crafted with natural materials and with creature comforts in place. Inhale the aroma of nutmeg, pepper and cloves, for the resort is anchored in a former spice plantation

Here is your opportunity to trek through untamed forests where herds of wild elephants, Indian bison and other creatures roam free; explore fragrant tea estates that carpet rolling hillsides like a chequered quilt; ride the fabled toy train that is now a World Heritage Site...
